Experience

Online Plant Nursery Application

- This project aims at developing a website titled "Online Plant Nursery Application" where both the frontend and backend are connected using JDBC Spring Boot to postman and PostgreSQL, in which the admin can view, update, delete and search the plants, seeds, planters and booking order details.
- Spring Boot Project(java 8 + Data JPA+ REST) for programming. Postman for testing the data and PostgreSQL for Database.
- Visual Studio Code(React JS + Bootstrap) for website creation and designing.
